GROUND SAFETY POLICY

TURNSTILES/ENTRY GATES

All Turnstiles/Gates will remain open until the crowd has dispersed at the end of a match. Padlocks will be removed by the Turnstile Operators prior to the game starting and remain on bolt until 30 minutes from the end of the game when the gates are opened

MAIN GATE

This gate is used to vacate the ground after the match and to be used in an emergency. It is the access point should an ambulance be required at any time during a match. There is no bolt on the gate - it can be opened from the inside always.

ASSEMBLY POINTS

In the event of a fire or other incident there are 4 Assembly Points – one at each corner of the ground.

SNACK BAR

Should a fire break or other incident occur in the Tea Hut, supporters on that side of the ground should move to the Assembly Area at the North Side of the ground.

COVERED ENCLOSURE

There are signs which go out on match days pointing to the Emergency Assembly Areas.

CLUB HOUSE

If there is a fire then they MUST evacuate the building quickly by the 2 fire exits or the main entrance door and safely move out to the Assembly Points or the Football Pitch

FIRST AID ROOM

If there is a fire then they MUST evacuate the building quickly through the entrance door and safely move out to the Assembly Points or the Football Pitch

DRESSING ROOM AREA

Should a fire begin in the Dressing Room all Players and Officials from both teams MUST evacuate the building through either of the entrance door at the front or Fire Exit at the back. Then move out to the Football Pitch or the Assembly Areas. If possible the Kit Man would check both dressing rooms and the Referees Room and then it is the responsibility of both Managers to check their numbers to ensure that everyone is out of the building. A designated committee member (Fire Warden) if possible ensures that the Toilets, Wash Room and Managers Room are cleared.

ANNOUNCER

Prior to the start of every game the Announcer as well as announcing the teams asks the Spectators the following:

- In the event of a fire, accident etc ask them to ensure that they are aware of the 4 Emergency Evacuation Areas
- Ensure that they are aware of the nearest one to them
- When the horn sounds go immediately to the safest Emergency Evacuation Area.
- On arrival at the Safety Area await further instructions
